powermesh®

Welcome to your connected home made simple.

TRADER®

Get comfortable with the convenience of control.

We've taken the complexity out of connectivity in the home, making technology simple to complement your lifestyle. You can now control what you'd like, when and how you'd like. It's never been this simple - get connected today.

use touch   use the app   use your voice

Home automation is now an affordable luxury for everyone in every home.

100 years of electrical innovation in the home.

Our vision for the future is drawn on experience from the past. Technology should be easy to use and liberate you from complication, making life easier for the whole family.

TRADER

100 Years of Gerard Electrical Tradition

Trader continue the Gerard family tradition of providing true innovation as the leader of Australian electrical products in the home.

The Gerard tradition spans back several generations to 1907 when Alfred Gerard first started his own business. That's over 100 years of supplying quality electrical products to millions of Australians.

Proudly Australian

Trader's Powermesh Range

works with the **Google Assistant**

✳ *These products are coming soon*

powermesh®

Simple. Secure. Reliable.

The future of connected devices use mesh networks. Powermesh enabled devices send and receive messages from each other, eliminating the need for a central hub. Each device plays a role, with more linked devices providing network reliability and a quicker response.

Bluetooth™

zimi®

Control at your fingertips
